Brief Disclaimer

12

The DLC concept that is featured in this software development document is fictional. Since it is intended for GTA Online, a game that is owned by Rockstar Games, it will feature some aspects or concepts of their game to help me illustrate the DLC concept.

Any imagery that is owned by Rockstar Games, is only used by me for educational purposes, to help explain a concept that I am proposing.

No type of illegal or unauthorized modification to GTA Online is being proposed in this document. I am only reusing certain aspects of their game in a hypothetical manner. I am also including other components for addition into GTA Online.

Any other images found in this document are used solely for educational purposes and are property of their respective owners. Using any images from public sources does not mean I am claiming ownership over the images.

I will also use the GTA Online logo to help me illustrate some of the concepts I am proposing.

Accessing this presentation through my LinkedIn page (or any other way) does not give you the permission to distribute it nor claim it as your own work.

No relation to Rockstar Games nor GTA Online. Thank you.

Sincerely,

Vision Statement – The Jet Car Concept

Sample Jet Car 1

Propose Jet Car Handling

Military Group

In designing the *GTA Online Spy Satellite DLC*, a few potential optimizations were discovered. The optimizations in this document use the in-game cell phone that is provided to the players to launch a Targeted Direct Energy (Laser) Strike.

The components for a directed energy weapon are in *GTA Online*. The components would have to be repurposed in order for the Direct Energy (Laser) Aircraft to be functional. A fighter jet and an attack helicopter, both with Direct Energy (Laser) Weapons can be included as part of the *GTA Online Spy Satellite DLC*.

The Mammoth Avenger has a laser weapons system. The Mobile Operations Center (MOC) also has a laser weapons system. Only the Avenger is shown on the image on the left.

The Direct Energy (Laser) Aircraft would be provided to the player by the Military Services Group, through the spy satellite, respectively.
