# Brief Disclaimer

2

The DLC concept that is featured in this software development document is fictional. Since it is intended for GTA Online, a game that is owned by Rockstar Games, it will feature some aspects or concepts of their game to help me illustrate the DLC concept.

Any imagery that is owned by Rockstar Games, is only used by me for educational purposes, to help explain a concept that I am proposing.

No type of illegal or unauthorized modification to GTA Online is being proposed in this document. I am only reusing certain aspects of their game in a hypothetical manner. I am also including other components for addition into GTA Online.

Any other images found in this document are used solely for educational purposes and are property of their respective owners. Using any images from public sources does not mean I am claiming ownership over the images.

I will also use the GTA Online logo to help me illustrate some of the concepts I am proposing.

Accessing this presentation through my LinkedIn page (or any other way) does not give you the permission to distribute it nor claim it as your own work.

No relation to Rockstar Games nor GTA Online. Thank you.

# Vision Statement

## RC Transformer-Type Vehicles

In designing the *GTA Online Spy Satellite DLC*, a few optimizations were discovered. The optimizations in this document use the in-game cell phone that is provided to the players to communicate with a Shadow Hacker Group through a spy satellite.

The Shadow Hacker Group will provide the players with RC Transformer-type vehicles. The vehicles will function as RC cars, but be able to transform to robots. In robot form, the robots will be weaponized.

The robot-form of the vehicles will have similar weapons to the RC Invade and Persuade Tank.

In vehicle form, the vehicles will not be weaponized, but the vehicles will have a self-destruct mechanism. The vehicles will also have the ability to release proximity mines of various types.

For these transformer-type vehicles, there should be a variety of skins to choose from. The inspiration for this DLC content draws from the Transformers movies. It would be fitting to have different vehicle “skins” that align well with the movie.
