Vision Statement

Direct Energy (Laser) Fighter Jet

Direct Energy (Laser) Attack Helicopter

Mammoth Avenger

Military Group

In designing the *GTA Online Spy Satellite DLC*, a few potential optimizations were discovered. The optimizations in this document use the in-game cell phone that is provided to the players to launch a Targeted Direct Energy (Laser) Strike.

The components for a directed energy weapon are in *GTA Online*. The components would have to be repurposed in order for the Direct Energy (Laser) Aircraft to be functional. A fighter jet and an attack helicopter, both with Direct Energy (Laser) Weapons can be included as part of the *GTA Online Spy Satellite DLC*.

The Mammoth Avenger has a laser weapons system. The Mobile Operations Center (MOC) also has a laser weapons system. Only the Avenger is shown on the image on the left.

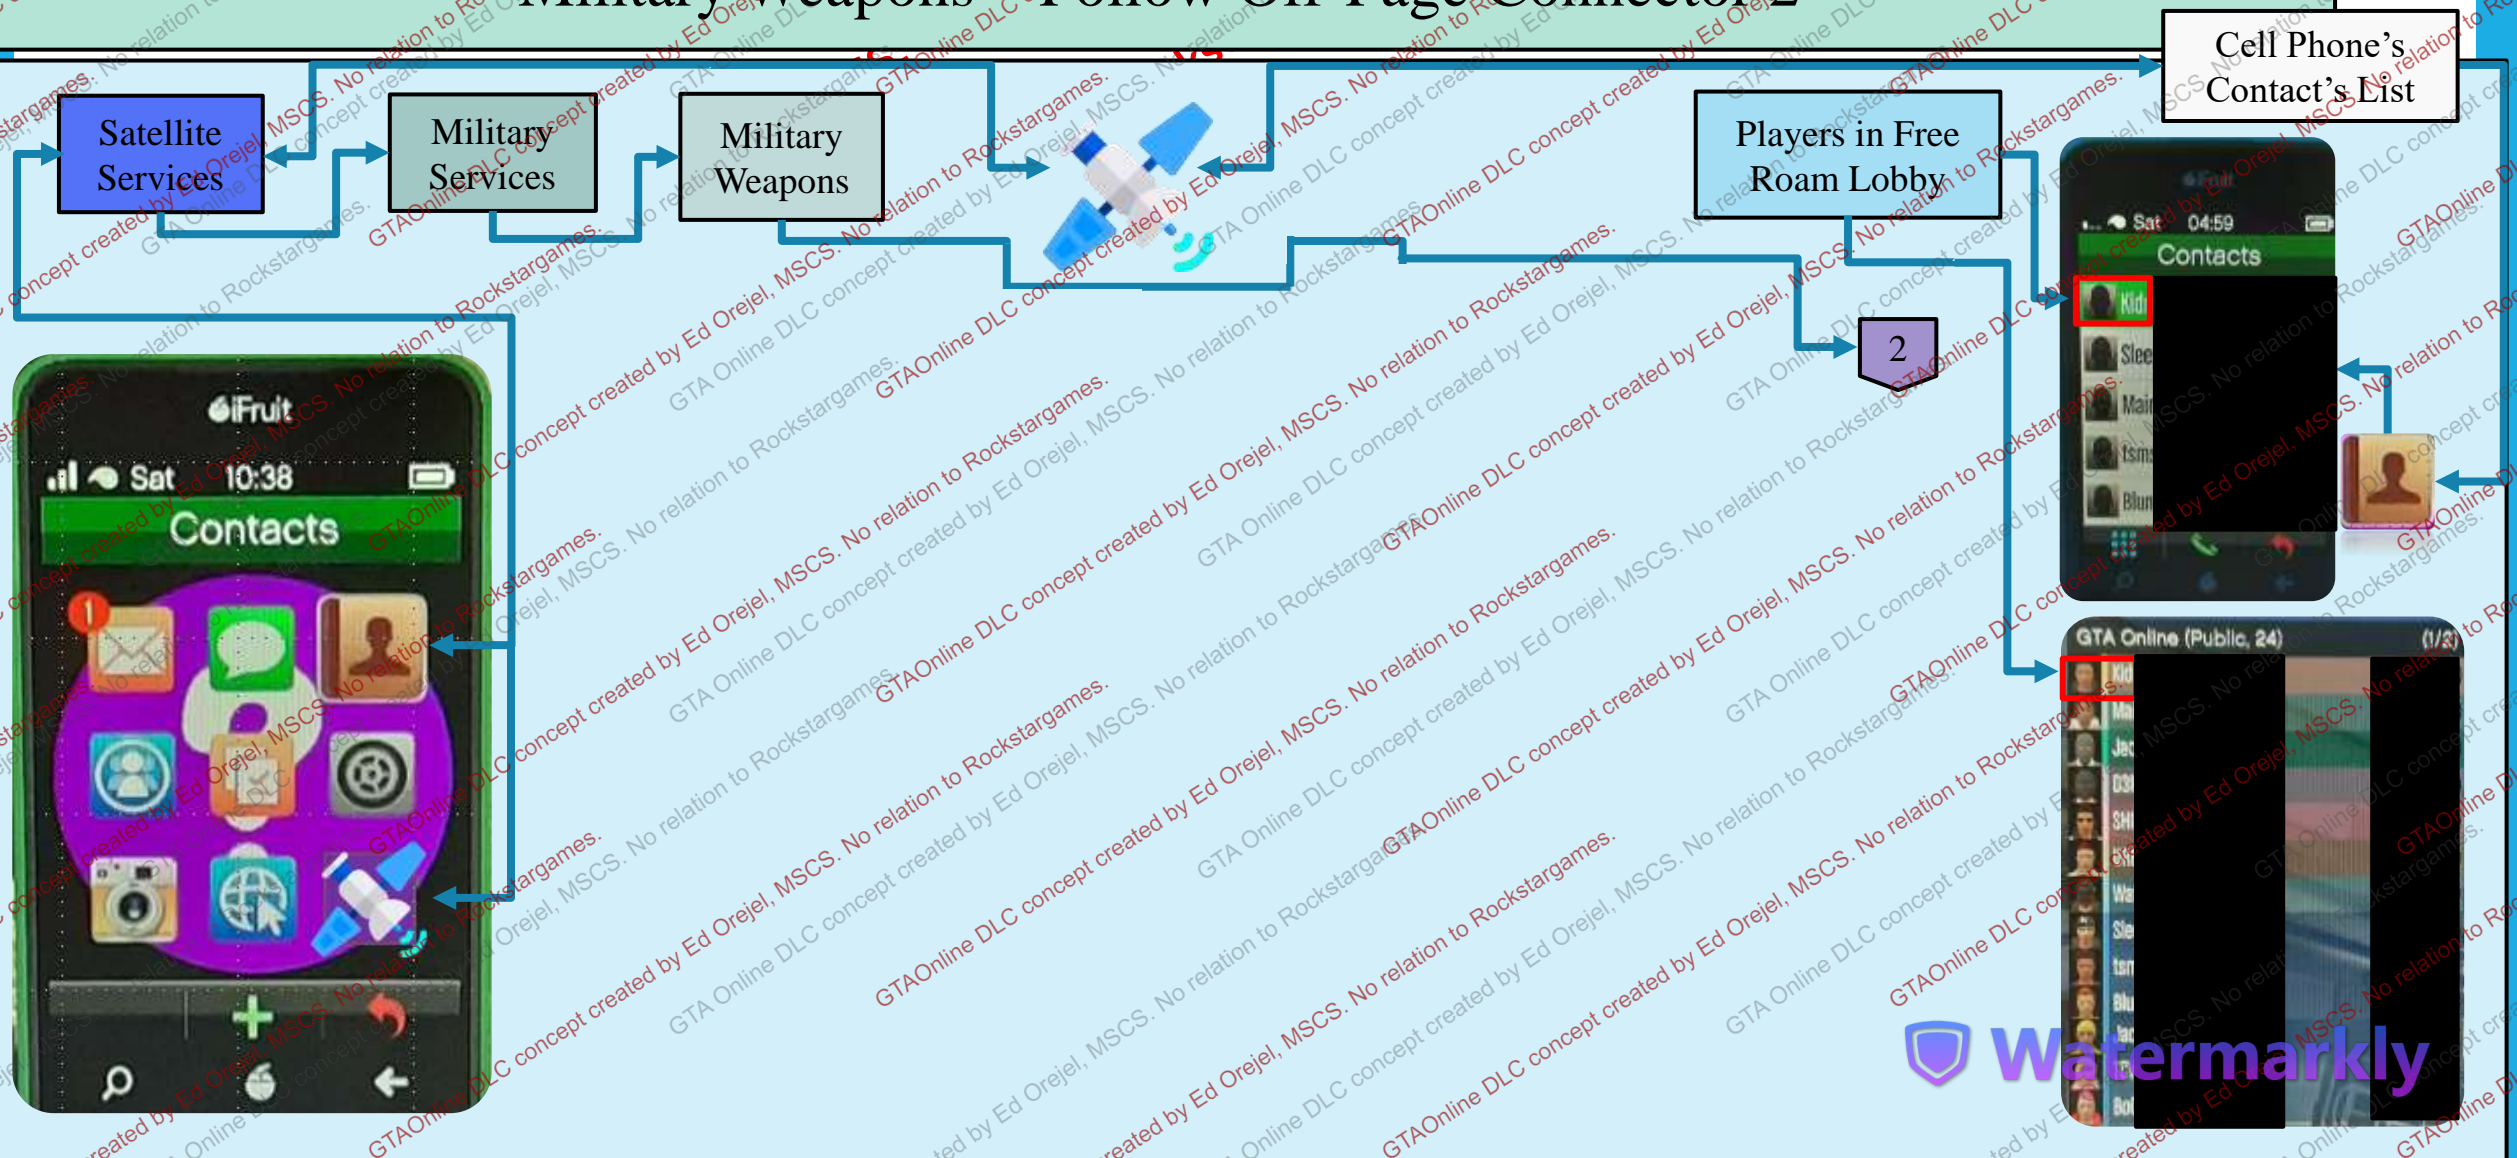

The Direct Energy (Laser) Aircraft would be provided to the player by the Military Services Group, through the spy satellite, respectively.
